## STOCKYARDS RIOT.

Savage Attacks Were Made Upon the Non-Union Meat Workers Employed There.

SEVERAL WERE SERIOUSLY HURT.

Two Women Dragged From Street Car, Knocked Down and Badly Beaten Before Police Arrived.

A Woman in Another Car Was Struck in the Mouth With a Brick and All Her Front Teeth Were Knocked Out.

Chicago, Sept. 9.—The strike of the butcher workmen, which had been on for the last two months, was officially declared off Thursday by President Michael Donnelly, of the Amalgamated Meat Cutters and Butcher Workmen of America.

During the strike approximately 53,000 persons have been involved in the struggle, which is estimated to have cost the men about \$5,000,000 in wages, as against an estimated loss of \$7,500,000 to the packers in loss of business, and in increased expenses.

The greater number of men idle in Chicago during the strike was 26,000, and the total in the country outside of this city is estimated to be about the same.

The original cause of the strike was a demand by the butchers' union that the packers pay to the unskilled workers 14 1/2 cents an hour. The packers refused an agreement, but offered to arbitrate the question.

Chicago, Sept. 12.—Savage attacks were made upon non-union workers at the stockyards Monday night, and in the fight that followed 8 people were injured, four of them so severely that it was necessary to take them to hospitals.

At Halsted and 104th streets two young women, Anna Cook and Mamie Jasper, were dragged from a street car, pounded over the head, knocked down and badly beaten before the police arrived. Miss Cook was severely cut in the face, her shoulder was injured and she was taken to the hospital. Miss Jasper was struck with a brick and her face and forehead were badly cut. It was found necessary to take her also to the hospital.

Three policemen rescued the women from the mob but it refused to disperse and continued to throw stones. A west-bound car which happened to pass during the trouble was struck by several of the missiles and two of the passengers were struck. One woman was hit in the mouth with a brick, and all of her front teeth were knocked out. Anton Ashtuta, a driver for a brewery, tried to drive through the crowd, and was hit in the back of the head with a brick and knocked from his seat. His scalp was badly cut and he is in a serious condition.

A call for help had been sent in, and officers soon arrived, whereupon the crowd soon scattered.

NON-RESIDENT NEGROES.

All of Them Were Driven Out of Carlisle, Ind., by a Mob.

Carlisle, Ind., Sept. 13.—James Hammond, colored, while resisting arrest Monday afternoon, was shot and seriously wounded by Constable T. E. Whinnon. Hammond was trying to resist a quarrel with other Negroes. On Monday night a mob gathered and drove all the non-resident Negroes out of the town. Race feeling is intense, and it is feared that Negroes having 554 homes here will be compelled to leave. Hammond was taken to the Sullivan track for safe keeping, when threats of lynching were heard.

The mob Monday night visited the home of every Negro family. Every man, except one occupied by an old woman, was deserted. These people were not molested, but doors and windows in the other houses were demolished. No further trouble is expected.

St. Louis the Negro laborers make an effort to return to Carlisle on Tuesday.

Y., says: "After a billion attacks I took one of these pills and it did me more good than all the other pills I ever took and at the same time the effect was pleasant. Little's Early Risers are certainly an ideal pill." Sold by Louis Drug Co.

Superintendent of the Dead Letter Office Probably Suicided.

Washington, Sept. 12.—The dead letter office of the post office department, which is the repository of the dead letter office, was found Sunday night by one of the watchmen, who was making his rounds just after midnight. Evidently it was a case of suicide, for there was a bullet hole in the right temple, and a pistol, with one or more barrels discharged, lay on the floor beside him. Mr. Leibold was a native of Indiana, from which state he was appointed to the post office department.

The tonnage for August was 4,331,854. The production for the year up to September 1, was 35,212,225, against 42,431,849 for the corresponding period last year. The decrease in production is due to the numerous suspensions of operations because of lack of demand.

## STILL RETREATING.

The First Part of the Campaign May Be Considered Lost to the Russians.

JAPANESE WILL ENTER MUKDEN.

The General Staff Now Estimates the Japanese Forces at From 450,000 to 500,000 Men.

The Russian Army Will Reconcentrate in the North, But It Needs Several Months in Order to Fill Up the Losses.

Cronstadt, Sept. 12.—The Baltic fleet, under command of Vice Admiral Hejstevensky, sailed Sunday afternoon for the destination of the fleet, into the Baltic. Four cruisers and several torpedo boats, is the far east.

Tokio, Sept. 12.—An approximation of the Japanese casualties in the battle of Liao Yang, based upon reports of the chiefs of the medical corps of the three Japanese armies, was concluded Sunday. It covers the fighting from August 26, and shows that the killed and wounded amount to 17,533 men, divided as follows:

In the right army, under the command of Gen. Kuroki, 4,566 men; in the center army, under the command of Gen. Nodzu, 4,992 men; and in the left army, under the command of Gen. Oku, 7,975 men. These casualties include 13,000 killed and 4,533 wounded. The fact that the army under Gen. Oku sustained the heaviest losses is accounted for by its assault upon the Russian defenses to the south of Liao Yang.

Telegraphic report received here Sunday from the headquarters of the Manchurian army declare the Japanese to be in full possession of the Yantai coal mines, and estimate the Russian loss to the fall of Liao Yang at not less than 25,000 men. The estimate of losses does not include those suffered by the Russians in the year guard actions fought after the evacuation of Liao Yang.

Paris, Sept. 13.—The Journal's Liao Yang correspondent, having ridden to Tien Tsin, sends thence the following uncorroborated dispatch, under date of September 12:

"The first part of the campaign may be considered lost. The Russian army has retreated northward in the direction of the Tien Tsin, or further. The Russian army's inferiority in men, guns and enthusiasm prevented Kuroki's retreating longer at Liao Yang or achieving at Yantai a victory which would have obliged the Japanese to fall back. The Japanese will shortly triumphantly enter Mukden."

"The Russian general staff now estimates the Japanese force at from 450,000 to 500,000. The Russian army will reconcentrate in the north, but it needs several months in order to fill up the losses in a number of corps, which must be doubled, and to replace reserves by active troops. Above all, it is essential to restore the morale, affected by almost unprecedented trials and difficulties. A Russian offensive movement will be impossible for a long time."

Liao Yang, Sept. 8, via Tien Tsin, Sept. 13.—The looking of Liao Yang has few parallels in the annals of warfare. Three armies on three different days, had possession of the city and engaged in acts of depredation.

Russian Transport Arrives.

San Francisco, Sept. 12.—The Russian transport Lena, Capt. Berlin, put into this port Sunday for repairs. The Lena is 31 days from Vladivostok. She has a crew of 497 men and 21 officers, and carries 23 guns.

Washington, Sept. 13.—The expected arrival of Japanese transport ships at the Russian port of Vladivostok, which arrived at San Francisco Sunday, to remain longer than 24 hours, came Monday when the Japanese consul in that city, through the collector of customs, made formal demand that the vessel be required to leave at the end of that time.

The collector's telegram officially notifying the authorities of the arrival of the Lena, and of Japan's protest, was addressed to the secretary of the treasury, who at once sent copies to Acting Secretary of State Alice and Acting Secretary Murray, of the department of commerce and labor, who has direct jurisdiction in the matter. The telegram reads as follows:

"Japanese consul has made demand upon me that Russian auxiliary cruiser Lena, arriving at this port 11th instant, leave within 24 hours. The captain reports that he has entered for repairs of engines and boilers, principally the latter. I am requesting the inspector of hulls and boilers to make an examination of vessel's machinery, with the consent of the Russian consul and the commander of the Lena. Can find no authority in the law or regulations for the collector assuming any authority, and request instructions."

San Francisco, Sept. 13.—In an interview Monday with Navigating Officer Speckneff, of the auxiliary cruiser Lena, he was asked how long he would remain here, he said:

"The Lena will probably remain here until the war is over. We expect that the officers and crew will be sent home by the way of New York."

(In the deck were between 200 and 300 sailors. An inspection of the decks of the converted cruiser, to which no objection was made, revealed the fact that she had 25 mounted guns.)

To August 1 expenses of British Tibet expedition was \$2,542,000.

## BY ALLEGED LYNCHERS.

Body of Harris, Accused of Murder, Riddled With Buckshot.

Louisian Junction, Ky., Sept. 13.—The body of Lewis Harris, aged 25, was found near town Monday morning by a Negro section band. There were 22 buckshot holes from the waist to the head.

There is considerable mystery about the murder, as the appearance of the body and the position in which the man lay when found, indicate that he was killed elsewhere than where found Monday morning, and also that he was killed Sunday night.

Harris had been tried for the killing of a man of the name of Fox on the Illinois Central railroad, in Jefferson county, a year or two ago, and also for housebreaking in the last year.

It is supposed that he was killed over a woman, and was placed here by his murderer or murderers. The coroner's jury brought in a verdict to the effect that he came to his death from buckshot wounds by unknown parties.

The Russian and the Japanese armies are racing toward Mukden. Field Marshal Oyama has moved precisely his entire across force the Taitse river and has started in hot pursuit of the army of Gen. Kuropatkin. A report from St. Petersburg last night said that Kuropatkin's rear guard had been almost annihilated, and that it was feared that his entire army would be surrounded. A dispatch from Mukden says that preparations are being made to evacuate that city. This report has not been verified at St. Petersburg, but the news has caused consternation there, as it is stated, the evacuation of Mukden would mean the abandonment of Southern Manchuria and the winding up of the present campaign. The Russian losses at Liao Yang are officially estimated at 16,000 and Gen. Kuropatkin is said to have abandoned 20 guns, the most of them being rendered useless before the evacuation of the city. Official figures of the Japanese losses are expected to reach Tokio soon. Late advices from Chefoo say the Japanese are still bombarding Port Arthur and sustaining heavy losses.

A CONTINUAL STRAIN.

Many men and women are constantly subjected to what they commonly term "a continual strain," because of some physical or family trouble. It wears and distresses them, both mentally and physically, affecting their nerves badly and bringing on liver and kidney ailments, with the attendant evils of constipation, loss of appetite, sleeplessness, low vitality and despondency. They cannot, as a rule, get rid of this "continual strain," but they can remedy its health-destroying effects by taking Fergusson's Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. McKee, of Wood, Ind. "I took treatment with several physicians with no result. I then started to take Fergusson's Cured Hemorrhages of the Lungs, and my lungs are now as good as new. I commend it to all advanced cases of lung trouble." Sold by Louis Drug Co.

Here is a simple and available recipe—a medicinal bath for the acronically worn and those who cannot sleep at nights. It was the prescription of an old physician. Recipe: Take of sea salt four ounces, spirits of ammonia two ounces, spirits of camphor two ounces, of pure alcohol eight ounces and sufficient hot water to make a full quart of the liquid. Dissolve the salt in the hot water and let stand until cool. Pour into the alcohol the spirits of ammonia and camphor. Add the salt water, shake well and bottle for use. With a soft sponge dipped in this mixture wet over the surface of the whole body. Rub vigorously until the skin glows. When nervous or "blue" or wretched do not omit this bath. After a two weeks' pleasant visit to Logan, W. Va., your writer arrived at this place Saturday night.

A big crowd returning from the reunion at Grayson, came up on the overpacked train to Webbville.

Every body well here except Squire Jarrell's wife, who is slightly indisposed.

Road working is going right along which is creditable to the county.

There was a reunion of the Webb family at Elias Webb's yesterday. Forty-two were present at dinner—

five generations—with the great-grandmother, the widow of Wash Webb, hale and hearty. The reunion was given in honor of her son, Richard Webb, who has been in Wenatchee, Washington, for the past eleven years, this being his first visit home. The table certainly did groan under the load of good things to eat until we got to it and relished it of a goodly portion. I could not begin to tell you what it was, for Mrs. Elias Webb is such a fine cook and hostess that she gets up many delicious dishes that the writer does not know. We had a lovely day and all promised if we did not meet here any more we would try and meet in heaven.

Drummer Joe Gardner has been here for 8 or 10 days drinking bitter-herb for his health, which seems even better than sulphur water.

## OBITUARY.

Ida Webb, wife of Andy Webb, Jr., departed this life September 1, 1904. She was a member of the M. E. Church, South, having been taken into the church and baptized on the 12th day of June, 1904, by Rev. R. H. Caswell. She was a daughter of Covey Adams and was a good Christian girl, loved by all who knew her. She leaves a husband and two little children and many friends and relatives to mourn her loss. She died with that dread disease, consumption, which is so common in our country. When death was doing its work upon her life she said to her sister-in-law, Mrs. Lindsey Webb: "Am I not dying?" And when her husband came in she said, "Andy, I am dying," and then called her two little children to her and told the older one to be a good child, go to school and mind her papa and remember her mamma, and then kissed them good-bye and expired.

She heard the trumpet blow. The gladsly solemn sound, Let all the millions know, To earth's remotest bound The time of jubilee is come: Return ye ransomed loved ones home.

## COUNTY FAIR

To Be Held At Louisa October 6,  
7 and 8.

The date decided upon for the Law-  
rence County fair this year is October 6,  
7 and 8.

Our farmers are requested to bring in  
for exhibit all the various kinds of pro-  
ducts heretofore shown at these fairs,  
as well as any others worthy of display.

The first day will be Friday, and all  
are urged to enter their exhibits promp-  
tly on the morning of that day. Also,  
all entries for the two following  
days should be made the first day, so as  
to give the secretary time to get proper  
record and avoid confusion.

The State Commissioner of Agricul-  
ture has been invited to be present and  
inspect the fair.

It has been decided to put the fair up-  
on a slightly different basis this year.

The chief aim has always been one of  
education, seeking to awaken new in-  
terests in farming and raise the standard  
of this great industry. We congrat-  
ulate ourselves that much good has been  
accomplished. Therefore small pre-  
miums have been used to stimulate the  
interest. It is now believed that the  
enterprise has reached the point where  
the interest is sufficient to put the fair  
on its proper basis and do away with  
prizes. Exhibitors representing the  
decisions of the judges will be used. No  
entry fee will be charged. It is hoped  
and believed that our people will take  
as much interest in securing the high-  
est quality, as in procuring a small  
cash prize. This is the higher idea and  
the one that will result in advancing  
agriculture and stock raising. So let  
all join in with enthusiasm and help to  
show the best of everything we produce.

—Via the R. R. Extension.

In going to Paintsville by rail the  
most noticeable thing, to one who  
has seen Whitehouse on the arrival  
of the morning train, is the com-  
parative quiet, almost stagnation in  
the latter place. For years White-  
house was the eastern terminus of  
the O. & N. S. division, C. & O.  
It was the point from which in  
low water, all supplies for the  
upper Sandy and adjacent regions  
were sent. A half dozen or more  
banks were waiting to carry pas-  
sengers, and as many hotels and  
restaurants had runners out for the  
hungry. The big freight depot was  
never empty, and it took more than  
one steamboat and dozens of push-  
boats to carry the thousands of tons  
of freight to other points along the  
river. But the hotels are closed,  
most of them, the runners have  
gone, the big coal mining and  
handling of the Whitehouse Con-  
pany, the place would be still  
indeed. At the Paintsville station  
all is life and bustle. The station  
is a very handsome building, on the  
upper side of Paint creek, in a fine  
location, with ample room for side-  
tracks, switches, etc., and is prob-  
ably a mile from the town of Paint-  
sville, or the town is a mile from  
the depot, just as you like. Here  
you are met by the same old hacks,  
waiting to carry you to Paintsville,  
or Prestonsburg, twelve miles fur-  
ther up the river. By the way,  
the track is now laid to a point only  
one mile from this latter town. Only  
a few yards from the Paintsville de-  
pot a man named Sweet has opened  
a very good hotel, and for a good  
while he will coin the shekels. The  
morning train arrives at 10:55 and  
leaves at 12:15, going plenty of  
time to go to the town of Paint-  
sville, transact business and return  
after dinner.

The nine or ten miles of extension  
now opened already shows signs of  
the helpful, helpful influence of  
a railroad, and the improvement  
will be more marked as the busi-  
ness goes on. There are two dis-  
tinct stations between Whitehouse  
and Paintsville—River and Meeks,  
and will probably be one more.  
From Ashland to Paintsville it is  
sixty-six miles, and the fare is two  
dollars, one dollar and twenty cents  
from Louisa. Within the memory of  
many it took two days to go from  
Paintsville to Ashland in low water.  
Then the traveler was often com-  
pelled to wait a day or more for a  
boat, if he wanted to go to Cincin-  
nati on the river. Now he can eat  
his breakfast in Paintsville and sup-  
per the same day in Cincinnati,  
with four hours to spare in Ashland.

"BLACK MAMMY"

## "HELL BROKE LOOSE ON CAT."

This declaration of a native who  
was asked what was the matter  
about the story of an awful  
tragedy which so fearfully injured  
the otherwise quiet beauty of a Sep-  
tember Sabbath night, and added a  
new, deeper scar to a section of  
Lawrence county, already seared  
and disfigured by more than a doz-  
en lawless outbreaks. This occur-  
red, too, in what should have been  
a sanctuary—a place too holy and  
sacred for such a deed that for which  
it was created and dedicated—the  
worship of God. But on this fatal  
night the floor of Polly's Chapel, a  
country church on Cat's Fork of the  
Illinois, was drenched with the  
blood of "lucky" Daniels, who it is  
charged, was stabbed to death by  
John Ledman, and who died, in the  
language of a participant, "Just as  
soon as he could after he was hit"—  
meaning that he died almost as soon  
as he received the fatal thrust.

Daniels was not the only one in-  
jured. John Holbrook, son of an  
innu familiarly known as "One-Eyed  
William" Holbrook, whose home is  
near Overda postoffice, was danger-  
ously wounded by knife thrusts  
made by John Daniels, a nephew of  
the man who was killed. Daniels  
was arrested by Constable William  
Hughes, who brought him to Louisa  
Monday, and put him in jail. Re-  
ports concerning Ledman are vague  
and conflicting. One hour we hear  
that he is under guard near the  
scene of the killing, and the next  
moment it is said that he has fled  
to parts unknown. Indeed, it was  
said on the streets Tuesday that  
John Daniels, the man under ar-  
rest and confined to await an exam-  
ination for the wounding of Hol-  
brook, is really the man who killed  
his uncle Buck. John told a News-  
man that all he was in for was an  
assault on Lindsay Webb, an excel-  
lent man, a son of Andy Webb. In  
truth, information of a thorough-  
ly reliable sort concerning this latest  
tragedy is hard to get. John Dan-  
iels says "We was all a drinkin'".  
This tells part of the story, and  
anyhow, you may safely bet that  
this much is true. He also says he  
thinks there was an old grudge be-  
tween his uncle Buck and Ledman.  
There were a good many people in  
the little church on the fatal night,  
but the preacher, Franklin Rogers,  
had not been there.

Buck Daniels was a man prob-  
ably 55 years of age, and had a wife  
and five children. John Daniels is  
a single man, 25 years old.

An examining trial of this awful  
case is set for today, and it is pos-  
sible that some light will be thrown  
upon this, another dark blot on the  
county of Lawrence.

Pocketbook Recovered.

York, Pa., September 5.—Rev.  
Frederick F. Shannon, of this city,  
has just come into possession of  
his pocketbook, containing much  
money and valuables, which was  
lost one year ago, and which had  
given him much uneasiness. The  
story of its recovery reads like a  
romance.

Last September, a year ago, Mr.  
Shannon and wife left here to visit  
his parents in Kentucky. While on  
their way aboard the train, Mr.  
Shannon lost his pocketbook.

The book was picked up by a  
small girl on the train, who took  
it to her home, at Luke, Md. The  
little girl talked about her rich  
find to some of the neighbors.  
Meantime, the father, O. D. Wil-  
liams, a mill boss, took possession  
of the pocketbook and locked it up.

Nothing was heard of the pocket-  
book until about two weeks ago,  
when Mr. Shannon received a let-  
ter from Luke, Md., from a Mr. A.  
Jones, stating that he had informa-  
tion of importance concerning him.

Mr. Shannon replied, and another  
letter came back telling him of the  
pocketbook. He immediately  
went to Maryland, met the Mr.  
Jones, and straightway called up  
on Williams. The pastor gave a  
complete description of the pocket-  
book, which contained \$275 in  
money and a note for \$350 drawn  
on the Rev. Wesley Hill, of Har-  
rington, Pa., a number of railroad  
tickets and other valuable  
papers.

The description was so complete  
that Williams said: "Well, I  
guess you are the man," and going  
to the upper part of the house,  
brought down the book with its  
contents unmoiled.

Taking the pocketbook, the  
preacher placed it in his inside coat  
pocket, thanked Williams politely  
and left the home. The reward  
was given to Jones, and not to  
Williams.

A very swell wedding occurred  
at Prestonsburg Wednesday night  
of last week, the occasion being the  
marriage of Miss Josephine Hop-  
kins to Mr. Thomas Edward Hop-  
kins. The bride is the very pret-  
ty and accomplished daughter of  
Mr. and Mrs. Frank Hopkins, of  
Prestonsburg, her father being the  
valued and able member Congress  
from the Tenth Kentucky District.  
Mr. Dimmick is a very popular and  
worthy young man, brother of Mr.  
George Dimmick, whose wife was a  
daughter Capt. John Hopkins, and  
a cousin of the bride. Mr. and Mrs.  
Dimmick will make an extensive  
Western tour and return to make  
their home in Prestonsburg.

The new railway station is very  
rapidly nearing completion. The  
concrete walls are finished, and the  
floors, also of concrete, will be  
completed this week. The putting  
in of the doors and windows and  
the painting of the interior will  
finish the job.

## Grand Millinery Opening

Beginning Wednesday, September 21, 1904.

You must not miss this opening exhibition of the new Fall and Winter styles.  
Never in this part of the country has there been shown a more attractive dis-  
play of really beautiful and modish designs at such positively reasonable prices.

You may not be quite ready to select your Fall and Winter hat—that will not make any  
difference and is all the better reason why you should come to see what the new styles  
are like. Getting your Fall and Winter hat is an important matter. It means something  
to look well in, or something you are disappointed with every time you put it on—and  
that makes you dissatisfied and out of temper. You want to be sure that the Fall and  
Winter hat you buy is just the most becoming hat you could select.

## THE GUARDIAN OF OUR BODY.

The foremost biologist of our day, M. Metchnikoff, has shown the world of science that there are leucocytes in our blood that act as scavengers or policemen. These policemen which are called phagocytes look out for the noxious or poisonous elements in our blood. Various offending elements are picked out of the blood and these phagocytes are destroyed. Therefore our lives are protected by these blood-cell-policemen, the phagocytes, and we enjoy immunity from disease so long as our blood contains plenty of phagocytes and red blood corpuscles.

"A new broom sweeps clean"—and in order to put our own home in order we must get rid of all the poisons in the blood with a new broom such as an alternative extract made from roots and herbs—without the use of alcohol, as Dr. Pierce's Golden Medical Discovery, a specific for making rich red blood—for eradicating the poisons from the blood. In some way the poisons in the blood are increased in number and strength—so that we are put in the best possible shape to resist disease—no cure for catarrh, colds, catarrh, and incipient consumption.

The more study and time is given to the subject the more we find that the blood is the center of life—says Dr. R. V. Pierce, the noted specialist of Buffalo, "the heart and comfort of the average person depends entirely on this blood supply for the health must have pure blood or it will not pump and keep the body supplied regularly like the beautiful automatic engine it is. The nerves must be fed on pure blood—here we suffer the pain of rheumatism, which is the cry of the starved nerves for food. Headaches, colds in the head, catarrh, and many other things are due to stagnation of the blood."

Dr. Pierce's Pleasant Pellets are a mild laxative. No other medicine equals them for gentleness and thoroughness.

Two of the most interesting anatomical now working within the limits of the United States are those used by the Government for counting and tying postal cards in small bundles. These machines are capable of counting 500,000 cards in ten hours and wrapping and tying the same in packages of twenty-five each. In this operation the paper is pulled off a drum by two long "fingers," which come from below, and another finger dips in a vat of mullage and applies itself to the wrapper paper in exactly the right spot. Other parts of the machine twice the paper around the pack of cards and then a "thumb" presses over the spot where the mullage is, and the package is thrown upon a carry belt ready for delivery.

## SOFT CORE

Like the running brook, the red blood that flows through the veins has to come from somewhere.

The springs of red blood are found in the soft core of the bones called the marrow and some say red blood also comes from the spleen. Healthy bone marrow and healthy spleen are full of fat.

Scott's Emulsion sends new blood by feeding the bone marrow and the spleen with the richest of all fats, the pure cod liver oil.

For school girls and for all for all whose skin is thin and pale, Scott's Emulsion is a pleasant and rich food. It not only feeds the making organs but gives them strength to do their proper work.

Emergency Medicines.

It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise, or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a pain may be treated before inflammation sets in, which insures a quick recovery. For sale by A. M. Hughes.

Four bottles of this wonderful remedy entirely cured me of the cough, strengthened my lungs and restored me to my normal weight, health and strength." Sold by Louisa Drug Co.
